¹ Adjusted operating profit, adjusted net income, and adjusted basic and diluted earnings per share are non-GAAP measures and should not be considered as a substitute or alternative for GAAP measures. These are not defined terms under IFRS and do not have standard meanings, so may not be a reliable way to compare us to other companies. See "Non-GAAP Measures" for information about these measures, including how we calculate them.

¹ Adjusted net debt and adjusted net debt / adjusted operating profit are non-GAAP measures and should not be considered as a substitute or alternative for GAAP measures. These are not defined terms under IFRS and do not have standard meanings, so may not be a reliable way to compare us to other companies. See "Non-GAAP Measures" for information about these measures, including how we calculate them. Effective September 30, 2015, we have retrospectively amended our calculation of adjusted net debt to value the net debt derivatives without adjustment for credit risk. See "Non-GAAP Measures" in our Fourth Quarter 2015 Earnings Release for more information on this amendment.

¹ We have made an immaterial reclassification of \$74 million from additions to program rights to changes in non-cash working capital related to property, plant and equipment and intangible assets for the third quarter of 2015. The reclassification had no net impact on cash used in investing activities.

¹ Subscriber counts, subscriber churn, postpaid ARPA, and blended ARPU are key performance indicators. See "Key Performance Indicators".

2 Effective January 1, 2015 and on a prospective basis, our Wireless postpaid subscriber results included Wireless Home Phone subscribers resulting in a base adjustment of approximately 92,000 cumulative subscribers, which are not included in net additions, but do appear in the ending total balance for December 31, 2015.

⁴ On July 2, 2015, we acquired approximately 154,000 Wireless prepaid subscribers as a result of our acquisition of Mobilicity, which are not included in net additions, but do appear in the ending total balance for December 31, 2015.

¹ The operating results of Source Cable Ltd. (Source Cable) are included in the Cable results of operations from the date of acquisition on November 4, 2014.

² See "Key Performance Indicators".

³ On November 4, 2014, we acquired approximately 16,000 cable high-speed Internet subscribers, 16,000 Television subscribers and 11,000 Phone subscribers from our acquisition of Source Cable, which are not included in net additions, but do appear in the ending total balance for December 31, 2014. The acquisition also increased homes passed by 26,000.

⁴ As at end of period.

⁵ Includes Internet, Television, and Phone subscribers.

Key Performance Indicators

We measure the success of our strategy using a number of key performance indicators that are defined and discussed in our 2014 Annual MD&A and this earnings release. We believe these key performance indicators allow us to appropriately measure our performance against our operating strategy as well as against the results of our peers and competitors. The following key performance indicators are not measurements in accordance with IFRS and should not be considered as an alternative to net income or any other measure of performance under IFRS. They include:

- Subscriber counts:
- Subscriber churn;
- Postpaid average revenue per account (ARPA);
- Average revenue per user (ARPU); and
- Capital intensity.

Commencing in the first quarter of 2015, we began disclosing postpaid ARPA as one of our key performance indicators.

Postpaid average revenue per account - Wireless

Postpaid ARPA helps us identify trends and measure our success in attracting and retaining multiple-device accounts. A single Wireless postpaid account typically provides subscribers with the advantage of allowing for the pooling of plan attributes across multiple devices and on a single bill. Each Wireless postpaid account is represented by an identifiable billing account number. A single Wireless postpaid account may include more than one identifiable telephone number and receive monthly Wireless services for a variety of connected devices including smartphones, basic phones, tablets, and other devices. Wireless postpaid accounts under our various brand names are considered separate accounts. We calculate Wireless postpaid ARPA by dividing total Wireless postpaid network revenue (monthly) by the average number of Wireless postpaid accounts for the same time period.

Non-GAAP Measures

We use the following non-GAAP measures. These are reviewed regularly by management and our Board of Directors in assessing our performance and making decisions regarding the ongoing operations of our business and its ability to generate cash flows. Some or all of these measures may also be used by investors, lending institutions, and credit rating agencies as indicators of our operating performance, of our ability to incur and service debt, and as a measurement to value companies in the telecommunications sector. These are not recognized measures under GAAP and do not have standard meanings under IFRS, so may not be a reliable way to compare us to other companies.

Non-GAAP measure	Why we use it	How we calculate it	Most comparable IFRS financial measure
Adjusted operating profit and related margin	To evaluate the performance of our businesses and when making decisions about the ongoing operations of the business and our ability to generate cash flows. We believe that certain investors and analysts use adjusted operating profit to measure our ability to service debt and to meet other payment obligations. We also use it as one component in determining short-term incentive compensation for all management employees.	Adjusted operating profit: Net income add (deduct) income taxes, other expense (income), finance costs, restructuring, acquisition and other, depreciation and amortization, stock-based compensation, and impairment of assets. Adjusted operating profit margin: Adjusted operating profit divided by Operating revenue (network revenue for Wireless).	Net income
Adjusted net income Adjusted basic and diluted earnings per share	To assess the performance of our businesses before the effects of these items, because they affect the comparability of our financial results and could potentially distort the analysis of trends in business performance. Excluding these items does not imply they are non-recurring.	Adjusted net income: Net income add (deduct) stock-based compensation, restructuring, acquisition and other, impairment of assets, (gain) on sale of investments, (gain) on acquisitions, loss on non- controlling interest purchase obligations, loss on repayment of long-term debt, and income tax adjustments on these items, including adjustments as a result of legislative changes. Adjusted basic and diluted earnings per share: Adjusted net income divided by basic and diluted weighted average shares outstanding.	Net income Basic and diluted earnings per share
Free cash flow	 To show how much cash we have available to repay debt and reinvest in our company, which is an important indicator of our financial strength and performance. We believe that some investors and analysts use free cash flow to value a business and its underlying assets. 	Adjusted operating profit deduct additions to property, plant and equipment, interest on borrowings net of capitalized interest, and cash income taxes.	Cash provided by operating activities
Adjusted net debt	 To conduct valuation-related analysis and make decisions about capital structure. We believe this helps investors and analysts analyze our enterprise and equity value and assess our leverage. 	Total long-term debt add (deduct) current portion of long-term debt, deferred transaction costs and discounts, net debt derivative (assets) liabilities, credit risk adjustment related to net debt derivatives, bank advances (cash and cash equivalents), and short-term borrowings.	Long-term debt
Adjusted net debt / adjusted operating profit	 To conduct valuation-related analysis and make decisions about capital structure. We believe this helps investors and analysts analyze our enterprise and equity value and assess our leverage. 	Adjusted net debt (defined above) divided by 12 months trailing adjusted operating profit (defined above).	Long-term debt divided by net income
